Hi All,

Thanks for the excellent suggestions.

In the letter, Oregon stated that board action board action to address small and medium fish streams will be completed by December 31, 2014. Not sure what that means. Final rule or a request to consider rulemaking?

Christine clarified that the meeting will not cover CZARA.

Hi Jayne – I thought the briefing paper looked really good. The only thing I'd think about is what messages we want Dennis to send to Oregon on April 21, if they talk on CZARA. One of the things I think would be useful is to get some timeframes from the State on when they think the Rulemaking will go forward and also get more information on any actions and related timing on the roads and landslides portion of the forestry sections.

Assuming they talk on CZARA, I assume that Oregon will try to get a feel from Dennis whether their submittal is sufficient for approval. And we should give Dennis the message that we either need to stay neutral or that information in particular areas like forestry, need to be more detailed and that we want to work with them on that in the next few months.

Another idea is that Dennis can stay fairly general, then they agree to have another meeting dedicated to CZARA where they can get more detailed.

Thanks! I'll send you my briefing on OR TMDL litigation too when I'm done with it. - Jenny

Hi All,

Just wondering if you have time to review the attached. Christine wanted me to develop an one pager providing an update on OR CZARA.

Thanks!

Jayne

Me either. The most recent talking points/briefing paper I has is what we all collectively developed for last fall's governor's meeting.

Nope. haven't done any briefing papers recently. Waiting until we have a better sense of our strategy/decision.

Hi Allison & Don,

I am developing a fact sheet/briefing paper for the RA and wondered if you have done so recently. If so, can you email me a copy?
